THE ELECTIONS.

The Democrats Make Large Gains.

PENNSYLVANIA GOES DEMOCRATIC

Probable Defeat of McKinley by a Small Majority.

California Will Undoubtedly Go Republican.

Yesterday's Ricetion

New York, Nov. 4.-The returns up to noon show the Democrats have elected sixty-seven Assemblymen in this State and the Republicans fiftynine, with two districts still to be heard from, with a probability in favor of the Republicans. It looks like a tie on joint ballot. A United States Senator depends upon the result.

New York, Nov. 5 .- The official returns from the Congressionel districts of the State will not be known for some days. There, however, will make no change in the results reported by the Ascociated Press last night, unless Coombs, Democrat, proves to be elected in Erooklyn. New York's delegation in Congress, if Coombs is defeated, will be 20 Democrats and 14 Republicans. It reverses the delegation in the precent Congress of 20 Republicans and 14 Democrats.

CHICAGO, Nov. 5 .- It is estimated counties in Illinois, including Cook, give Amberg, Republican, 12.682 plur- Third. ality for State Treasurer, and Edwards, Republican, 8,984, for State Superintendent of Public Instruction. The same counties two years ago gave Harrison 14,085 over Cleveland. Should the same rate continue, Amberg will be elected by 14,000 and Edwards by 10,000. As the returns thus far and mostly from Chicago and Northern Illinois, Republican strongholds, and both of the Democratic candidates are from Southern Illinois, the present Republican plurality will probably be radically decreased by leter returns. Both State Central Committees claim the State. In the Fourth Congressional District, Newberry, Democrat, is elected over. Congressman Adams. In the First, Taylor, Republican, is re-elected.

In the Third Congressional District, Durborrow, Democrat, is elected over Mason, Republican.

CHICAGO, Nov. 5. - Never in the history of Illinois have election returns throughout the State been so complicated by scratching or local issues as now, and the returns are still very meagre.

The latest indications for Cook county are that Lawler, the Democratic nominee for Sheriff, will have a small majority

Amberg, the Republican nomince for State Treasurer, will probably be elected by 7,000 majority.

CHICAGO, Nov. 5 .- The Republican State Central Committee claims the Logislature by from six to ten on joint ballot, which, if true, means the election of a Republican United States Senator to succeed Farwell, the present Republican Senator.

Craits, the Democratic leader in the Illinois General Assembly, concedes the Legislature by four or five mem-

Boston, Nov. 5 .- The Journal, Republican paper, says that the election has resulted in the choise of Russell (Dem.) for Governor, but the incomplete returns do not indicate the election of any other Democratic candidate for a State office. In the Congressional districts the Republicans lose several districts which had been regarded as safe. The total, with twelve places to hear from, is as follows: Russell, 139,947; Brackett, 129,962; Blackmer, 13,060.

Boston, Nov. 5.-The Governors Council stands 7 Republicans and 1 Democrat.

Boston, Nov. 5 .- Walker, the Republican candidate, is elected to Congress in the tenth district.

Boston, Nov. 5.-The Globe says | cincts in Stark county, and close estiwith only half a dozen towns to hear mates on the balance, give McKinley best chance. The claims made by his party associates early this morning ranged from 2,000 to 5,000. The Republicans are claiming a majority of the Legislature, but it is admitted there is a possibility that a combination of the Alliance and Democratic strength might control the next Legislature, and also one Congressman. The scattered nature of the returns received last night prevented positive statements, although both the Democratic and Republican parties claim everything possible.

Lind is undoubtedly returned from the Second District. Dunnell in the First and Snider in the Fourth are by the returns of sixty-four of the 102 still in doubt, with the chances in their favor. Hall is defeated in the

> Springfield, Ill., Nov. 5 .- Congressman Springer the Democratic candidate is re-elected by over 5,000 majority, a gain of over 2,000.

> PHILADELPHIA, Nov. 5. - Waters, the Republican candidate for Lieutenant-Governor, and Stewart the Republican candidate for Secretary of International affairs are elected, notwithstanding the defeat of the head of the ticket. The complete returns of this city shows pluralities ranging from 21,000 to 25,000.

PHILADELPHIA, Nov. 5.—The election of Pattison (Dem.) for Governor is conceded by the Republicans by over 5,000. The Democrats have certainly gained two Congressmen, and the fig- ters indicate the election of fourteen

Philadelphia, Nov. 5.—The revised figures indicate that Pattison's plurality for Governor will exceed 10,000.

KANSAS CITY, Nov. 5 .- The news rom Kansas indicate the Farmers Alliance have secured a victory in that State. The official count will be necessary to decide whether Willets, its candidate for Governor, or Humphrey, Republican, have been elected, but the indications are in Willets' favor. with the most of the western counties. where the farmers are in a majority, to hear from. The Farmers' Alliance have elected beyond a doubt, Baker, its candidate for Congress in the Fifth District, and it seems reasonably sure they elected Simpson in the Seventh District. The Fifth District is also conceded to be very close between Davis, Farmers' Alliance, and Philips Republican. The Republicans elected Funston in the 2d, and the 3d and 4th are in doubt between the Farmers, Alliance and the Republicans. The returns strongly indicate the election of Ives, Farmers' Alliance, for State Attorney. The Democrats and resubmission vote is very heavy, but not so large as anticipated. Contant, druggist, and Mrs. Byrnes, Boots and shoes. The flames have crossed Main street, and two frame buildings are now burning.

The Returns Up to the Gazette's

The latest returns from every precinct in the county except Salt Marsh give Colcord 31 majority. Salt Marsh two years ago polled 23 votes, of which Harrison's Presidential Electors received 18 and Cleveland's 5, but 13 majority can hardly be hoped for Colcord, for the reason that the vote is largely composed of men in Mr. Winters' employ, so his majority will undoubtedly be reduced to 20 or 25, which is too close for comfort. Bartine's majority is 105, with Salt Marsh and the Second and Third Wards of Reno to hear from.

THE GAZETTE will hail the day when the Republicans redeem their pledge relative to the Australian measure stop the corrupt use of money at elections, for the purchaser of a vote will be obliged to trust to the "honor" of the man he buys to deliver the goods. We are well aware of the tact that a man who will sell his vote is not overburdened with that element so essentially necessary to the well-being of any community, called "honor," but what spark there is left will have to be relied on for a faithful performance of the contract. The greed for office and power was so great that both parballot system. That will in a power was so great that both parties had to resort to the corrupt use of money to carry their points yesierday, and so common has the custom become that there is an element in society who call themselves men, who wait for a bid for their vote before they will cast it, and if some one who is nearly as unprincipled as the seller does not come along with a five or ten dol-lar piece to purchase the right cannot be beat for scents on the coast. our forefathers held so sacred, they will not vote at all. Every step forward tends to elevate the morals of a community, and if the Republicans are faithful to their promises the Australian ballot system will do much toward purifying politics.

Now THAT the campaign is over the Nevada press can discontinue hostilities and assume a more Diamond : Spectacles, friendly relation. The Democratic papers need no longer resort to misrepresentation and falsehood S. J. HODGKINSON'S to build up their candidates, but can dismiss the subject with a good big growl and come down to the regular routine work. The Republican papers will no longer have to split hairs over the questions of whether Mr. Winters blew out the gas or Mr. Colcord pays taxes in Esmeralda; or whether Colcord raised the wages of miners two bits a day or four. The Enterprise can fill its columns with the old stereotyped "mining reports," the Carson papers can get down to the next thing to nothing, the Journal can continue to clip from the GAZETTE all its "latest news," and we will all be happy. "So mote it be. Amen!"

THE election of Mr. Colcord, after a campaign of misrepresentation and insinuation, proves what has always been maintained by the GAZETTE, that there is a vein of honor and common sense in the people to which a worthy cause can always safely be trusted. Mr. Colcord's election shows that the people are judges of issues, and are not to be hoodwinked by the false theories cooked up by political workers.

Mr. Colcord may well be congratulated on the triumphant vindication of his character and man-

GOVERNOR Hill of New York has got a deserved dressing down from Secretary Noble. Hill is a great deal more of a politician than a statesman and more of a demagogue than either. He has stood in with the worst element in New York city to get a recount give the slums of Gotham an admantage of about 10 or 15 per cent in eunemeration over all other districts of the Union. Secretary Noble has wit enough to see his game and properly rebukes him for playing the ward politician in the Gubernatorial chair.

It is now reported that the President has decided against calling an extra session of Congress. It is probably true, as it is now getting very late to issue a call. Most of the rumor to this effect has issued from Mugwump or Democratic sources, and was undoubtedly put out with a view of influencing the election by getting up a scare over the Federal Election bill.

Make No Mistake If you decide, from what you have heard of its cures or read of its merits, that you will take Hood's Samaparilla, do not be induced

take Hood's Sarsaparilla, do not be induced to buy something else which may be claimed to be "about the same" or "just as good." Remember that the sole reason for efforts to get you to purchase some solistitute is that more profit may be made. Firmly resist all inducements, and insist upon having just yhat you called for, Hood's Sarsaparilla. Then you will not be experimenting with a new article, for Hood's Sarsaparilla is

Tried and True.

"In one store the clerk tried to induce me to buy their own instead of Hood's Sarsapar-illa. But he could not prevail on me to change. I told him I knew what Hood's Sar-saparilla was, I had taken it, was perfectly satisfied with it, and did not want any other." MRS. ELLA A. GOFF. 61 Terrace Street, Boston.

We Are All Taking It. "We could not be without Hood's Sarsapar-illa. It is the best medicine we ever kept in the house. My family are all taking it." Mrs. J. M. Barber, San Josquin and Fremont

Remarkable Rescue Mrs. Micheal Curtain, Plainfield, Ill. makes the statement that she caught cold which settled on her lungs; she was treated for a month by her family physician, but grew worse. He told her she was a hopeless victim of consumption and that no medicine could cure her. Her druggist suggested Dr King's New Discovery for consumption: she bought a bottle and to her delight found herself benefited from first dose. She continued is use and after taking ten bottles, found herself sound and well, now does her own housework and is as well as she ever was—Free trial bottles of this Great Discovery at W. by the return of the wealthy classes and their opposites, the tramps, to town; also by the vast influx of immigration since June. New York city proposes to claim one more Congressman on the strangs of this recount. I have spoken of the tramps. It is a notzing to note their number. They swarm in the cuttlying districts of E. klyn and New York, and are the ter or of all housewives in the suburts. So long as they are allowed to enter and depart from the limits of a town unquestioned they will always be dangerous. If a tramp were compelled to carry papers and report himself to the police under pain of summary ariest for vagrancy, there would soon be no more tramp troubles. The homeless army here is appalling in number. At night, so long as the sky is clear, the beaches in all the parks in the center of the city are occupied by homeless men. The City Hall park has a regular congress of them iron dusk until dawn. Many of them are young men, victims of drink and camilling. A LOST ADDRESS. & Trinidad Lady Writes to San Fran-cisco for It.

Mrs. Harriet McNamars of 319 State Street, Trinidad, Colorado, while visiting in St. Louis last summer, did not suffer with her usual sick headaches and indigestion. But upon her return to Trinidad her old trou-bles came upon her. It was not the St Louis climate that did so much for her. The secret is told in the following letter, received by Thomas Price & Son, the well-known assayers of 524 Sacramento Street, San Francisco. Mrs. McNamara writes:—

San Francisco. Mrs. McNamara writes:—

"Three months since I was visiting in St. Louis, and obtained two bottles of Joy's Vegetable Sarsaparilla. It was of great relief to me in my headaches and indigestion. Since my return to my home in Trinidad I feel the need of it, and as I have lost the address I write to you to ask if you will not kindly forward this letter to the proper number in San Francisco, and have me sent a few more bottles of this valuable vegetable compound."

A Truin Loy Who Was a Mighty Good

Judge of Ruman Nature. The experienced train boy, says the Chicago Herald, was apparently giving instructions to a youth whom he was

instructions to a youth whom he was breaking in as an assistant.

In the seat directly in front of the two sat Mr. and Mrs. Harrison Kerpunk, of Georgeson's Cross Roads. It was their first trip away from home.

"You can gener'ly tell by their looks," said the peanut boy, oracularly, "whether it's soin' to pay to try to come any little game over 'em or not. See that chap half way between here an' the other end of the car? Well, you could sell that man a dime novel for a dollar sell that man a dime novel for a dollar and a half and rope him in on the dollarin-the-box trick just as easy as look at him. You'd be wastin' your time, though, to try and play any tricks on such people as these two in wont of us. They're old travelers. No use to show them any thing but what's bang up genuine an' cheap. If you've got any thing that's fresh an' wuth the money, them folks is the kind of customers to take em to the first thing. Suide goods won't go down with such customers as them, I tell you. Well, I must work the train now. Remember what I've told

"That boy is a mighty good judge of human nature, Jose, isn't he?" said Harrison to his wife, after the experienced peanut boy had gone into the forward car to get his basket. "He thought he wasn't talking loud enough for us to hear, but I've got pretty sharp ears. I heard every blamed word he said. Well, it's a fact, Jose," he added, "it wouldn't be much use to try any of his little tricks on me. I've got my eye teeth all cut. Here he comes. If he's got any thing worth buying he'll come straight You see if he doesn't."

And before the peanut boy was done with Mr. Harrison Kerpunk he had sold him half a dozen prize packages, five boxes of last year's maple caramels, a dozen sour oranges, three twenty-fivecent books for half a dollar each, unloaded his entire stock of moldy figs on him, and cleaned him out of a two dollar bill on an innocent little trick with a pill-box and a gold coin.

"Jose," said Harrison, after he had sat looking out of the window for about five miles, "durned if don't begin to think he said all that to the other boy on purpose for me to hear it!"

SHOES FOR WOMEN. aplent Remarks Uttered by a New York "Why on earth," said a New Yorker the other day after an hour's walk on Broadway, to a Shoe and Leather Review correspondent, "do women who haven't got pretty feet, and who know they haven't got pretty feet, if they know any thing at all about themselves, wear just the footgear that puts their feet at their very worst? A woman with big, shapeless feet or crooked feet can afford to wear but one kind of boot—a laced one-and never a low shoe under any circumstances. A button booo does all very well for the first few days while it still buttons trim and snug about the ankles, but every woman knows that it does this for a few days only; then it loosens and begins to take on the shape of the foot, exaggerating its peculiarities every day just a little. And by and by, before the boot is half worn out, it is a kind of caricature of her foot, with every defect and imperfection exaggerated. The laced boot doesn't do this, because it can be drawn up every morning like a new boot, helding the foot always firmly and securely and so acts as a corrective against any tendency the foot has to be ill-shaped and spreading. But women do not seem to have discovered this at all, or in very few cases, and so they go on buttoning up their street boots with as much satisfaction as if they weren't giving the best possible

and spreading and crooked as they choose. WOES OF THE BRIDE.

"Maria," said the young and handsome Leiber to his pretty bride, "how is Millie Bluebas coming on?"

The lady in question was suspected by his better half to be an old flame of her husband's, says the Philadelphia Times. She had dined with them the evening before.

"I haven't seen her. Alfred, so I can't say," with a touch of pique in her tone. The next evening and the next Mr. Leiber repeated his inquiry. This per-sistence finally roused his wife's jeal-

"Alfred Leiber," she retorted, "I wish to know why you are so anxious to hear about Millie Bluebas. Here, we're only a month married, and yet you-" Fur-ther utterance was stopped by a burst of

"Why, my darling," said Alfred, honestly surprised, "I was only anxious for your dear sake. I noticed that she are two pieces of your cake at our little dinner, and, knowing the fact, I naturally wanted to know the consequences."

Coffee as a Disinfectant.

It is asserted by men of high professional ability that when the system needs a stimulant nothing equals a cup of fresh coffee. Those who desire to rescue the dipsomaniac from his cups will find no better substitute for spirits than strong, newly-made coffee without milk or sugar. Two ounces of coffee, or one-eighth of a pound, to one pint of boiling water, makes a first-class beverage, but the water must be boiling, not merely hot. It is asserted that malaria and epidemics are avoided by those who drink a cup of hot coffee before venturing into the morning air. Burned on hot coals coffee is a disinfectant for a sick room, and by some of the best physicians it is considered a specific in typhoid

THE MAGICAL SQUARE.

An Arithmetical Puzzle field in Venera-tion by the Egypt and

It will be seen that in the natural square the numbers from 1 to 49 run in arithmetical progression. In the magical square the numbers are disposed in parallel and equal ranks, so that the sums in each row, taken either perpendicularly, horizontally or diagonally, are equal to one another-i. e., 175. These magical squares can, however, be much extended, writes Thomas Eathin in the Leeds Mercury, and show still more curious results:

The magic square was held in great

veneration among the Egyptians and

dedicated to the then seven known plan-

ets in various ways. To Saturn they attributed the square of nine places, the side being three and the sum of the numbers in every row being fifteen. To Venus they attributed the square I have given. Finally, they attributed to God the square of only one cell, the side of which is only a unit, which, multiplied by itself, undergoes no change. The ancients having used these magic squares for various purposes, they became a subject of consideration among mathematicians; not because they im agined that they would be of any solid use or advantage, but rather as a kind of play in which the difficulty makes the merit. If your young readers want a little recreation in the combination of figures, let them make a large square in which there are 256 smaller squares, and place in those smaller squares all the numbers from 1 to 256 in such a manner as will answer the following conditions: 1. The sum of the sixteen numbers in each column or row, vertical or horizontal, to be 2,056. 2. Every half column, vertical or horizontal, makes 1,028, or one-half the sum of 2,056. 3. Half a diagonal ascending added to half a diagonal descending makes also the same sum-2,056, taking these half diagonals from the ends of any sides of the squares to the middle of it, and so reckoning them either upward or downward, or sideways from right to left, or from left to right. 4. The same with all the parallels to the half diagonals, as many as can be drawn in the great square; for any two of them being directed upward and downward, from the place where they begin to that where they end, their sums will make the same, 2,056. 5. If a square hole equal in breadth to four of the little squares be cut in a paper, through which any of the 16 little squares in the great square may be seen, and the paper be laid upon the great square, the sum of all the 16 numbers seen through the hole is always equal to 2,056, the sum of the 16 num-

bers in any horizontal or vertical I am not prepared to say whether there is more than one correct way of placing the numbers which will fulfill the above conditions, but can assert that if a thousand people now comence to arrange the figures they may work all their lives, and each of them form a square a minute, and although every combination may be different, will not have completed onemillionth part of the wrong combinations which can be made. Perhaps this is a sufficient refutation of the frequent assertion that there is no rule for the

formation of these magical squares.

GAVE HIM A BUTTON. How a Rural Hebe Disconcerted a Yankee Insurance Man.

The girl who waited at our table in the little hotel had big brown eyes, a soft voice, and enough rural modesty to At out fifty city housemaids, says the Pittsburgh Dispatch. It was a sufficing pleasure to ask for something you didn't want just to see her blush and hear her

say: "I'm afraid we haven't any, sir!" But a smart insurance man, one of those keen Connecticut Yankees who go West to take advantage of the country before it grows up, was inclined to tease our rustic Hebe. He gave minute directions to her about the frying of his steak-the civilization of the place had not reached the broiling point-and sent back some boiled eggs because they

were not done enough. "Will you have some pertaters, sir?" the waitress asked, as she was taking away the eggs.

"Yes, Mary, I want some potatoes"— nobody else had called her Mary, and it was not her name-"you'd better cook some for me, and I'll have them later on. You must boil them with their jackets on-now be careful about thatand put a pinch of salt in the water, and"-he paused, and Mary, who had een gazing at him steadily with a heightening color, said: "Pertaters with their jackets on, sir?"

"Yes, Mary." "With or without, sir?" "Without what?" queried the Yankee,

a little confused. "Buttons!" said the girl, and amid the laughter of all but her disconcerted tormentor she made her escape.

The Term "Pin-Money."

The term "pin money" thus originated: 'Long after the invention of pins in the "Long after the invention of pins in the fourteenth century, the maker was allowed to sell them in open shop only on the first and second of January. It was then that the court ladies and city dames flocked to the depots to buy them, having been first provided with pinmoney by their husbands. When the pins became cheap and common the ladies spent their allowances on other fancies, but the term pin-money remained in-vogue." MISCELLANEOUS.
